

RefTool holder

The RefTool holder brings completely new possibilities to clamp electrodes fast and economic.

1. The function

2. Economic electrode holders

3. The application

3.1. RefTool graphite adapter

- Screw the RefTool graphite adapter on the graphite blank
- Cut and use the electrode in the system
- Store the electrodes together with the economic graphite adapter

3.2. RefTool graphite clamp

- Clamp the graphite blank into the clamp
- Cut and use the electrode in the system
- Store the electrodes with the economic graphite clamp

3.3. RefTool WEDM adapter RefTool free clamp

- The electrode can be cut in reference position by wire EDM through the RefTool WEDM adapter or the free clamp

- Complex form electrode-cut by WEDM

RefTool WEDM adapter

RefTool free clamp

- Complex profiles for serial jobs cut by WEDM
